

GOT SOIL CHEMISTRY?

Silver State Analytical Labs has your number - when it comes to:

- Soil chemistry – Sodium, sulfate, total solubility, chloride, gypsum, pH
- Resistivity tests – AASHTO (miller box), NDOT, conductivity suites
- Corrosion test suites – standard or customized
- Soil Fertility Tests – Agronomy Recommendation Reports
- Concrete – reactivity, chloride resistance, cement content
- Additional tests available, method development, customized reports

Enhanced Services, Equipment and Facilities:

- ❖ Acquired assets from Atlas Consultants (30 year service provider closed 2011) – April 2011
- ❖ Additional degreed chemists added – January 2011
- ❖ Purchased new Soil Test meters and “miller box” test boxes – January 2011
- ❖ Established EPA lab number for Reno Laboratory – March 2011
- ❖ Enhanced Customer Service Systems – March 2011
